

A CLOSER LOOK

A CLOSER LOOK includes nearly 30 topical discussion starters addressing key issues experienced by young people in high risk communities and schools. They address common problem areas, high risk people, high risk places, high risk things, and high risk situations.

They are intended to be used flexibly - selected by the group leader or counselor - to address specific current issues with a group or with an individual young person.

As discussion starters, they are shaped to facilitate engagement, participation, and self-disclosure. This package includes nearly 30 elements for the leader to choose from.
